

## Table of Contents

- 1.0 Purpose of Document
- 2.0 Applicability
- 3.0 General Street Standards
  - 3.01 Comprehensive Plan Compliance
  - 3.02 External Street Considerations
  - 3.03 Internal Street Considerations
  - 3.04 Internal Street Layout, Residential Development
  - 3.05 Internal Street Layout, Non-Residential
  - 3.06 Street Intersections
  - 3.07 Multiple Intersections
  - 3.08 Intersection Curvature
  - 3.09 Intersection Pavement Radii
  - 3.10 Offset Streets
  - 3.11 Reserve Strips
  - 3.12 Private Streets
  - 3.13 Driveways
  - 3.14 Half Streets
  - 3.15 Visibility
  - 3.16 Access to Major Streets
  - 3.17 Railroad Right-of-Way
  - 3.18 Dead-End Streets and Cul-de-Sacs
  - 3.19 Centered Improvements
  - 3.20 Vertical and Reverse Curves
  - 3.21 Super Elevation Curves
  - 3.22 Road Grades
  - 3.23 Street Surfacing
- 4.0 Street Design Criteria
  - 4.01 Right-of-Way and Street Widths
  - 4.02 Additional Street Widths
  - 4.03 Streets and Lot Splits
  - 4.04 Street Surfacing Options
  - 4.05 Concrete Streets
- 5.0 Subdivision Street Plans and Specifications
  - 5.01 Subdivision Plat
  - 5.02 Street Plan Set
  - 5.03 Title Sheet
  - 5.04 Street Plan and Profile Sheets
  - 5.05 Stormwater Drainage Plan and Profile Sheets
  - 5.06 Grading Cross Sections
  - 5.07 Street Construction Detail

- 5.08 Intersection Details
- 5.09 General and Technical Specifications
- 5.10 Cost Estimate
- 5.11 Professional Sealing of the Plans
  
- 6.0 Storm Water Drainage
  - 6.01 General
  - 6.02 Additional Permits and Consultation
  - 6.03 Drainage Structure Design
  - 6.04 Storm Water Management
  
- 7.0 Street Construction
  - 7.01 General
  - 7.02 Utilities
  - 7.03 Clearing and Grubbing
  - 7.04 Excavation
  - 7.05 Embankment
  - 7.06 Subgrade Preparation
  - 7.07 Fly Ash, Cement or Lime Treated Subgrade
  - 7.08 Aggregate Subbase
  - 7.09 Asphaltic Cement Pavement
  - 7.10 Concrete Curb and Gutter
  - 7.11 Traffic Control
  
- 8.0 Requirements for Subdivision Street Improvements
  - 8.01 Applicability
  - 8.02 Street Improvements and Building Permits
  - 8.03 Private Street Conversion to County Public Street
  - 8.04 Crushed Aggregate Street to Durable Surface
  - 8.05 Improvement of Streets by Benefit District
  - 8.06 Street Construction Oversight and Inspection
  - 8.07 Cost of Inspection
  - 8.08 Subdivision Improvement Financing
  - 8.09 Default of Developer
  - 8.10 Default Proceedings
  - 8.11 Guarantee Release
  - 8.12 Maintenance Bond

### Drawings

- CR-100 Major Arterial, Collector Street, Asphalt 6" Vertical Curb 31' width
- CR-101 Minor Local, Cul-de-Sac or Loop, (For Lots 2 Ac. or Less)  
Asphalt Curb and Gutter, 27' width
- CR-102 Minor (Local, Cul-de-Sac or Loop), Aggregate Street, 20' width
- CR-103 Minor (Local, Cul-de-Sac or Loop), Aggregate Street (for 3 Lots or less) 16' width
- CR-104 Minor (Local, Cul-de-Sac or Loop), Aggregate Street Converted to Asphalt
