Guidance for employers

Employees should isolate at home if:

<table>
<thead>
<tr>
<th>Condition</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>They show symptoms of COVID-19</td>
<td>Employees who test positive but are without symptoms should isolate at home until released by the health dept.</td>
</tr>
<tr>
<td>They have been tested and are awaiting results</td>
<td>Employees without symptoms who have been exposed and are awaiting test results should isolate at home.</td>
</tr>
</tbody>
</table>

No symptoms? Still contagious.

Employees who test positive but are without symptoms should isolate at home until released by the health dept.

Employees without symptoms who have been exposed and are awaiting test results should isolate at home.

Recommended actions:

- Require masks
- Implement daily health checks for common COVID-19 symptoms
- Rethink work spaces to allow for social distancing
- Enable good personal hygiene and disinfection
