

The Crawford County Highway Department will again participate in a dust control program for rural resident homes. Advance payment will be required prior to the application of Magnesium Chloride. Said material shall be applied by a private contractor and resident agrees to remit the sum of \$1.20 per ft. Check shall be made payable to Crawford County Highway Department and must be received by May 31, 2019. Residents are reminded that this material is a “dust inhibitor” and designed to help control dust, it will not eliminate all dust. Please contact the County Highway Department at 620-724-8215 for additional information.
