2ND Floor, Courthouse
Girard, Kansas 66743

Phone: 620-724-8215

Fax: 620-724-6841

MAINTENANCE AGREEMENT

An agreement is hereby made between Crawford County Highway Department and _____, for the application of Magnesium Chloride for a distance of _____ feet. Said material shall be applied by a private contractor and resident agrees to remit the sum of \$1.20 per ft. Check shall be made payable to Crawford County Highway Department and must be received by **May 31, 2019**.

Residents are reminded that this material is a “dust inhibitor” and designed to help control dust, it will not eliminate all dust. Crawford County will preserve the “dust inhibitor” for 60 to 90 days after treatment. Factors such as weather and traffic flow will affect the material’s performance. In most cases this material performs well and can be maintained throughout the year by being bladed occasionally. The County’s primary responsibility is maintenance of the road bed for the traveling public and when conflicts arise between maintaining the “dust inhibitor” and the traveling public, the traveling public will receive the first priority.

Crawford County makes no implied or stated warranty concerning the effectiveness of this material.
